

Energy Security

Update

Implications for energy, national security,
international relations and emergency management

6 May 2009

AIIA Conference Centre, Canberra

Aims

1. To update energy, national security, international relations and emergency service practitioners on developments which effect:
 - Domestic continuity of energy supply
 - International continuity of energy supply
2. To develop cross-practitioners personal networks which allow information to be accessed and shared

The Symposium will be relevant to those interested in the areas of:

- National security
- International affairs
- Energy policy
- Energy industry
- Development agencies
- Emergency and disaster management
- Critical infrastructure protection

Australian Institute of International Affairs
