Directors' Report

30 June 2013

Your directors present their report on Australian Institute of International Affairs Ltd for the financial year ended 30 June 2013.

1. General information

Directors

The names of the directors in office at any time during, or since the end of, the year are:

Names	Position	Appointed/Resigned
Mr John McCarthy AO FAIIA	National President	18/10/2010 - present
Ms Zara Kimpton OAM	National Vice President	09/12/2010 - present
Ms Melissa Conley Tyler	National Executive Director	16/01/2006 - present
Mr Dayle Redden	National Treasurer	07/06/2007 - present
Mr Ian Dudgeon RFD	ACT President	18/03/2008 - 30/08/2012
Mr Cameron Hawker	ACT President	30/11/2012 - present
Mr Leslie Rowe	VIC President	20/02/2012 - present
Mr Colin Chapman	NSW President	16/09/2010 - present
Dr Susan Boyd	WA President	13/10/2004 - 28/08/2012
Mr John Goodlad	WA President	28/08/2012 - present
Assoc Prof Felix Patrikeeff	SA President	22/10/1999 - present
Mr Geoffrey Ewing	QLD President	07/10/2008 - present
Dr Matthew Sussex	TAS President	13/11/2008 - present
Prof Andrew O'Neil	AJIA Editor	23/07/2009 - present
Assoc Prof Shirley Scott	Research Chair	17/12/2009 - present
Mr Paul Grigson	DFAT Representative	16/09/2010 - present

Directors have been in office since the start of the financial year to the date of this report unless otherwise stated.

Principal activities

The principal activity of Australian Institute of International Affairs Ltd during the financial year was the promotion of public understanding of issues in Australia's international relations.

No significant changes in the nature of the entity's activity occurred during the financial year.

Long term objectives

The company was established in 1933 with the long term objective to promote public understanding and interest in international affairs.

Directors' Report

30 June 2013

1. General information continued

Strategy for achieving the objectives

To achieve these objectives, the company has adopted the following strategies:

- **Forum for Debate** - The AIIA hosts meetings, lectures and discussions important to issues in world affairs. In 2012 - 13 the AIIA organised a number of events, making an important contribution to public debate.
- **Disseminating Ideas** - The AIIA publishes the scholarly journal *Australian Journal of International Affairs* as well as the *Australia in World Affairs* series, the definitive record of Australian foreign policy. Both now span more than 60 years. The AIIA also publishes occasional papers and conference proceedings.
- **Educating** - The AIIA works to interest young people in world issues through career fairs, school seminars and young members' programs in various states.
- **Collaborating** - The AIIA partners with other institutes in Australia and worldwide. It has co-operative relationships with similar institutes of international affairs, including the Royal Institute of International Affairs (Chatham House), and maintains contact with more than 110 other institutes worldwide.

Meetings of directors

During the financial year, 7 meetings of directors (including committees of directors) were held. Attendances by each director during the year were as follows:

	Directors' Meetings	
	Number eligible to attend	Number attended
Mr John McCarthy AO FAIIA	7	5
Ms Zara Kimpton OAM	7	7
Ms Melissa Conley Tyler	7	7
Mr Dayle Redden	7	6
Mr Ian Dudgeon RFD	2	2
Mr Cameron Hawker	5	3
Mr Leslie Rowe	7	6
Mr Colin Chapman	7	6
Dr Susan Boyd	2	2
Mr John Goodlad	5	4
Assoc Prof Felix Patrikeeff	7	1
Mr Geoffrey Ewing	7	6
Dr Matthew Sussex	7	-
Prof Andrew O'Neil	7	1
Assoc Prof Shirley Scott	7	5
Mr Paul Grigson	7	1

Directors' Report

30 June 2013

Auditor's independence declaration

The lead auditor's independence declaration in accordance with section 307C of the *Corporations Act 2001*, for the year ended 30 June 2013 has been received and can be found on page 4 of the financial report.

Signed in accordance with a resolution of the Board of Directors:

Director: 
Mr Dayle Redden

Director: 
Ms Melissa Conley Tyler

Dated 20/11/2013

Australian Institute of International Affairs Ltd
ABN 34 000 045 170

Auditors Independence Declaration under Section 307C of the Corporations Act 2001 To the Directors of Australian Institute of International Affairs Ltd

I declare that, to the best of my knowledge and belief, during the year ended 30 June 2013, there have been:

- (i) no contraventions of the auditor independence requirements as set out in the *Corporations Act 2001* in relation to the audit; and
- (ii) no contraventions of any applicable code of professional conduct in relation to the audit.

Notes to the Financial Statements

For the Year Ended 30 June 2013

The financial statements are for Australian Institute of International Affairs Ltd as a not-for-profit individual entity.

1 Summary of Significant Accounting Policies

Basis of preparation

The financial statements are a general purpose financial report that has been prepared in accordance with Australian Accounting Standards - Reduced Disclosure Requirements and the *Corporations Act 2001*.

Australian Accounting Standards set out accounting policies that the AASB has concluded would result in financial statements containing relevant and reliable information about transactions, events and conditions. Material accounting policies adopted in the preparation of these financial statements are presented below and have been consistently applied unless otherwise stated.

The financial statements have been prepared on an accruals basis and are based on historical costs modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities.

(a) Comparative figures

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

(b) Property, plant and equipment

Each class of property, plant and equipment is carried at cost or fair value as indicated less, where applicable, any accumulated depreciation and impairment losses.

Property

Land and buildings are measured at cost less accumulated depreciation and impairment losses.

Freehold land and buildings that have been contributed at no cost, or for nominal cost are valued and recognised at the fair value of the asset at the date it is acquired.

Plant and equipment

Plant and equipment are measured on the cost basis less depreciation and impairment losses. Cost includes expenditure that is directly attributable to the asset.

Plant and equipment that have been contributed at no cost, or for nominal cost are valued and recognised at the fair value of the asset at the date it is acquired.

Depreciation

The depreciable amount of all fixed assets including buildings and capitalised leased assets, but excluding freehold land, is depreciated on a diminishing value basis over the asset's useful life to the Company commencing from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful lives of the improvements. Land is not depreciated.

Notes to the Financial Statements

For the Year Ended 30 June 2013

1 Summary of Significant Accounting Policies continued

(b) Property, plant and equipment continued

The depreciation rates used for each class of depreciable assets are:

Class of Fixed Asset	Depreciation Rate
Buildings	2%
Plant and Equipment	10% - 40%
Furniture, Fixtures and Fittings	10% - 40%
Improvements	5% - 30%

The assets' residual values, depreciation methods and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in the statement of profit or loss and other comprehensive income.

(c) Financial instruments

Initial recognition and measurement

Financial assets and financial liabilities are recognised when the entity becomes a party to the contractual provisions of the instrument. For financial assets, this is the equivalent to the date that the Company commits itself to either the purchase or sale of the asset (i.e. trade date accounting is adopted).

Financial instruments are initially measured at fair value plus transactions costs, except where the instrument is classified 'at fair value through profit or loss' in which case transaction costs are expensed to profit or loss immediately.

Classification and subsequent measurement

Financial instruments are subsequently measured at either fair value, amortised cost using the effective interest rate method, or cost. *Fair value* represents the amount for which an asset could be exchanged or a liability settled, between knowledgeable, willing parties in an arm's length transaction. Where available, quoted prices in an active market are used to determine fair value. In other circumstances, valuation techniques are adopted.

Amortised cost is calculated as:

- (a) the amount at which the financial asset or financial liability is measured at initial recognition;
- (b) less principal repayments;
- (c) plus or minus the cumulative amortisation of the difference, if any, between the amount initially recognised and the maturity amount calculated using the *effective interest method*; and
- (d) less any reduction for impairment.

Notes to the Financial Statements

For the Year Ended 30 June 2013

1 Summary of Significant Accounting Policies continued

(c) Financial instruments continued

The *effective interest method* is used to allocate interest income or interest expense over the relevant period and is equivalent to the rate that exactly discounts estimated future cash payments or receipts (including fees, transaction costs and other premiums or discounts) through the expected life (or when this cannot be reliably predicted, the contractual term) of the financial instrument to the net carrying amount of the financial asset or financial liability. Revisions to expected future net cash flows will necessitate an adjustment to the carrying value with a consequential recognition of an income or expense in profit or loss.

The classification of financial instruments depends on the purpose for which the investments were acquired. Management determines the classification of its investments at initial recognition and at the end of each reporting period for held-to-maturity assets.

The Company does not designate any interest as being subject to the requirements of accounting standards specifically applicable to financial instruments.

(i) Financial assets at fair value through profit or loss

Financial assets are classified at 'fair value through profit or loss' when they are either held for trading for the purpose of short-term profit taking, derivatives not held for hedging purposes, or when they are designated as such to avoid an accounting mismatch or to enable performance evaluation where a group of financial assets is managed by key management personnel on a fair value basis in accordance with a documented risk management or investment strategy. Such assets are subsequently measured at fair value with changes in carrying value being included in profit or loss.

(ii) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are subsequently measured at amortised cost.

Loans and receivables are included in current assets, except for those which are not expected to mature within 12 months after the end of the reporting year.

(iii) Held-to-maturity investments

Held-to-maturity investments are non-derivative financial assets that have fixed maturities and fixed or determinable payments, and it is the Company's intention to hold these investments to maturity. They are subsequently measured at amortised cost.

Held-to-maturity investments are included in non-current assets, except for those which are expected to be realised within 12 months after the end of the reporting period, which will be classified as current assets.

If during the period the Company sold or reclassified more than an insignificant amount of the held-to-maturity investments before maturity, the entire held-to-maturity investments category would be tainted and reclassified as available-for-sale.

(iv) Available-for-sale financial assets

Available-for-sale financial assets are non-derivative financial assets that are either not suitable to be classified into other categories of financial assets due to their nature, or they are designated as such by management. They comprise investments in the equity of other entities where there is neither a fixed maturity nor fixed or determinable payments.

Notes to the Financial Statements

For the Year Ended 30 June 2013

1 Summary of Significant Accounting Policies continued

(c) Financial instruments continued

Available-for-sale financial assets are included in non-current assets, except for those which are expected to be sold within 12 months after the end of the reporting period.

(v) Financial liabilities

Non-derivative financial liabilities (excluding financial guarantees) are subsequently measured at amortised cost. Fees payable on the establishment of loan facilities are recognised as transaction costs of the loan.

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting date.

Fair value

Fair value is determined based on current bid prices for all quoted investments. Valuation techniques are applied to determine the fair value for all unlisted securities, including recent arm's length transactions, reference to similar instruments and option pricing models.

Impairment

Objective evidence that a financial asset is impaired includes default by a debtor, evidence that the debtor is likely to enter bankruptcy or adverse economic conditions in the stock exchange. At the end of each reporting period, the Company assesses whether there is objective evidence that a financial asset has been impaired through the occurrence of a loss event. In the case of available-for-sale financial instruments, a significant or prolonged decline in the value of the instrument is considered to indicate that an impairment has arisen.

Where a subsequent event causes the amount of the impairment loss to decrease (e.g. payment received), the reduction in the allowance account (provision for impairment of receivables) is taken through profit and loss.

However, any reversal in the value of an impaired available for sale asset is taken through other comprehensive income rather than profit and loss.

Impairment losses are recognised through an allowance account for loans and receivables in the statement of profit or loss and other comprehensive income.

Derecognition

Financial assets are derecognised where the contractual rights to receipt of cash flows expires or the asset is transferred to another party whereby the entity no longer has any significant continuing involvement in the risks and benefits associated with the asset. Financial liabilities are derecognised where the related obligations are either discharged, cancelled or expired. The difference between the carrying value of the financial liability extinguished or transferred to another party and the fair value of consideration paid, including the transfer of non-cash assets or liabilities assumed, is recognised in profit or loss.

When available-for-sale investments are sold, the accumulated fair value adjustments recognised in other comprehensive income are reclassified to profit or loss.

Notes to the Financial Statements

For the Year Ended 30 June 2013

1 Summary of Significant Accounting Policies continued

(d) Impairment of non-financial assets

At the end of each reporting year, the Company reviews the carrying values of its tangible and intangible assets to determine whether there is any indication that those assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, is compared to the asset's carrying value. Value in use is either the discounted cash flows relating to the asset or depreciated replacement cost if the criteria in AASB 136 'Impairment of Assets' are met. Any excess of the asset's carrying value over its recoverable amount is expensed to the statement of profit or loss and other comprehensive income.

Where it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Where an impairment loss on a revalued asset is identified, this is debited against the revaluation surplus in respect of the same class of asset to the extent that the impairment loss does not exceed the amount in the revaluation surplus for that same class of asset.

(e) Cash and cash equivalents

Cash and cash equivalents include cash on hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less which are convertible to a known amount of cash and subject to an insignificant risk of change in value, and bank overdrafts. Bank overdrafts are shown within short-term borrowings in current liabilities on the statement of financial position.

(f) Trade and other payables

Trade and other payables represent the liability outstanding at the end of the reporting period for goods and services received by the Company during the reporting period which remain unpaid. The balance is recognised as a current liability with the amounts normally paid within 30 days of recognition of the liability.

(g) Income tax

No provision for income tax has been raised as the Company is exempt from income tax under Div 50 of the *Income Tax Assessment Act 1997*.

(h) Leases

Leases of fixed assets where substantially all the risks and benefits incidental to the ownership of the asset, but not the legal ownership that are transferred to the Company are classified as finance leases.

Finance leases are capitalised by recording an asset and a liability at the lower of the amounts equal to the fair value of the leased property or the present value of the minimum lease payments, including any guaranteed residual values. Lease payments are allocated between the reduction of the lease liability and the lease interest expense for that period.

Leased assets are depreciated on a straight-line basis over their estimated useful lives where it is likely that the Company will obtain ownership of the asset or over the term of the lease.

Lease payments for operating leases, where substantially all of the risks and benefits remain with the lessor, are charged as expenses on a straight-line basis over the life of the lease term.

Notes to the Financial Statements

For the Year Ended 30 June 2013

1 Summary of Significant Accounting Policies continued

(h) Leases continued

Lease incentives under operating leases are recognised as a liability and amortised on a straight-line basis over the life of the lease term.

(i) Revenue and other income

The Company recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria have been met for each of Australian Institute of International Affairs Ltd's activities as discussed below.

Revenue is measured at the fair value of the consideration received or receivable after taking into account any trade discounts and volume rebates allowed. Any consideration deferred is treated as the provision of finance and is discounted at a rate of interest that is generally accepted in the market for similar arrangements. The difference between the amount initially recognised and the amount ultimately received is interest revenue.

Grant revenue

Government grants are recognised at fair value where there is reasonable assurance that the grant will be received and all grant conditions will be met. Grants relating to expense items are recognised as income over the periods necessary to match the grant to the costs they are compensating. Grants relating to assets are credited to deferred income at fair value and are credited to income over the expected useful life of the asset on a straight-line basis.

Donations

Donations and bequests are recognised as revenue when received.

Interest revenue

Interest revenue is recognised using the effective interest rate method, which for floating rate financial assets is the rate inherent in the instrument.

Rental income

Investment property revenue is recognised on a receipts basis.

All revenue is stated net of the amount of goods and services tax (GST).

(j) Goods and services tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Tax Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the statement of financial position are shown inclusive of GST.

Cash flows are presented in the cash flow statement on a gross basis, except for the GST component of investing and financing activities, which are disclosed as operating cash flows.

Notes to the Financial Statements

For the Year Ended 30 June 2013

1 Summary of Significant Accounting Policies continued

(k) Critical accounting estimates and judgments

The directors evaluate estimates and judgments incorporated into the financial statements based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the Company.

(l) Adoption of new and revised accounting standards

During the current year, the Company adopted all of the new and revised Australian Accounting Standards and Interpretations applicable to its operations which became mandatory.

The adoption of these Standards has impacted the recognition, measurement and disclosure of certain transactions. The following is an explanation of the impact the adoption of these Standards and Interpretations has had on the financial statements of Australian Institute of International Affairs Ltd.

2 Cash and Cash Equivalents

The Company's land and buildings were revalued at 31 March 2010 by independent valuers. The valuation was performed by CBRE at the request of the Directors. Valuations are made on the basis of open market value in an arms length transaction based on similar properties. The revaluation surplus net of applicable deferred income taxes was credited to an asset revaluation reserve in shareholders' equity.

- Borrowings	7	250,760	277,891
Total financial liabilities		308,958	323,631

Net fair values

Fair value estimation

Fair values are those amounts at which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

Fair values derived may be based on information that is estimated or subject to judgment, where changes in assumptions may have a material impact on the amounts estimated. Areas of judgment and the assumptions have been detailed below. Where possible, valuation information used to calculate fair value is extracted from the market, with more reliable information available from markets that are actively traded. In this regard, fair values for listed securities are obtained from quoted market bid prices. Where securities are unlisted and no market quotes are available, fair value is obtained using discounted cash flow analysis and other valuation techniques commonly used by market participants.

11 Members' Guarantee

The Company is incorporated under the *Corporations Act 2001* and is a Company limited by guarantee. If the Company is wound up, the constitution states that each member is required to contribute a maximum of \$ 2 each towards meeting any outstandings and obligations of the Company. At 30 June 2013 the number of members was 7 (2012: 7).

Notes to the Financial Statements

For the Year Ended 30 June 2013

Directors' Declaration

The directors of the Company declare that:

1. The financial statements and notes, as set out on pages 6 to 20, are in accordance with the *Corporations Act 2001* and:
 - a. comply with Accounting Standards - Reduced Disclosure Requirement; and
 - b. give a true and fair view of the financial position as at 30 June 2013 and of the performance for the year ended on that date of the Company.
2. In the directors' opinion, there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the Board of Directors.

Director
Ms Melissa Conley Tyler

Dated 20/11/2013

Independent Audit Report to the members of Australian Institute of International Affairs Ltd

Report on the Financial Report

We have audited the accompanying financial report of Australian Institute of International Affairs Ltd, which comprises the statement of financial position as at 30 June 2013, the statement of profit or loss and other comprehensive income, statement of changes in equity and cash flow statement for the year then ended, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration.

Directors' Responsibility for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards - Reduced Disclosure Requirements and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. Those standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance about whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation of the financial report that gives a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence

In conducting our audit, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of Australian Institute of International Affairs Ltd, would be in the same terms if given to the directors as at the time of this auditor's report.

Independent Audit Report to the members of Australian Institute of International Affairs Ltd

Opinion

In our opinion the financial report of Australian Institute of International Affairs Ltd is in accordance with the *Corporations Act 2001*, including:

- (a) giving a true and fair view of the Company's financial position as at 30 June 2013 and of its performance for the year ended on that date; and
- (b) complying with Australian Accounting Standards - Reduced Disclosure Requirements and the *Corporations Regulations 2001*.
